

Experience Nirvana hosts: **Sheryl Blumenthal** Private Sessions:

Saturday, June 20th from 11-8

Sheryl has studied in England , Japan and the US for many, many years. She serves on a number of panels, including the board of directors for the non-profit Global Healing Foundation. She has also been a presenter at a UN program.

Through years of counseling individuals and working with large groups, Sheryl helps assist individuals in the release of fears and emotional blockages that stem from their cellular origin (DNA). With emotional burdens freed, true inner joy, happiness, health, abundance and vitality return naturally. Wholeness within, lovingly expressed as 'heaven within'... creates transformationally, affecting all of mankind, our entire world and throughout our Universe.

Through the ongoing practical application of Seimei, a rare healing technique from Japan, and its study for many years, as well as the work done at Arthur Findlay College in England, one of the oldest schools in the world for intuitive healing studies and channeling, Sheryl has gained stronger awareness and an even more rare and open vessel.

She has been featured on television and radio programs and within many other forums: yoga studios, holistic practices, wellness centers, and numerous retreats. For many years, she was an elementary and special needs public school teacher. Sheryl is the author of "*Heaven's Doorway*" (Through the Little One) and is currently in the process of completing three books and a CD series.

Sheryl assists with

- Clarifying Your Higher Purpose
- Relationship Concerns
- Health Issues
- Professional Choices
- Indigo Consultations/Integration

**Prior to a private session, many people find it beneficial to sit in a silent place and pray or meditate about relative life questions that they are seeking guidance for. This may be done a day or two before a personal reading. Private channelings are audio-taped and given to you to take home.
