### Shattering the Myth of a Separate God and Reclaiming Your Divine Power

We stand on the edge of a magical time on Earth, a new era of anchoring the energy of heaven here on Earth. As Lightworkers, teachers and healers we are being called upon as never before to share our vibration and herald an era of Light and Unity. But, as Lightworkers, we are collectively struggling to remember our missions, our own divinity and our divine birthright of abundance. Join Karen as we enter into a paradigm-shifting dialogue that will help you understand your very important role on Earth at this time and how to permanently banish suffering and lack from your life. Learn how to ground your mission, create the abundance you deserve and fulfill your creative potential as an Unlimited Child of God.
